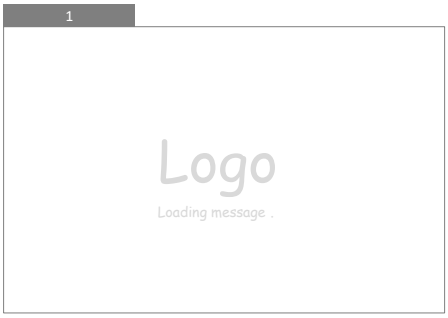
Page loader animation, reduced motion

Prepared by N. A. Wedderburn

Version 1.0
Published November 10, 2025

1

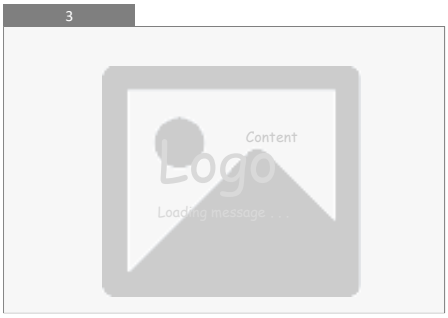


When the loader is constructed, the loader content fades in.

2

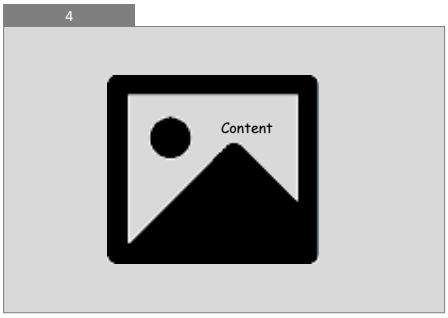
While page is loading, loading message ellipsis infinitely animates from 1 to 3 dots.

3



When page is finished loading, the loader content and background fade out simultaneously.

4



Content is revealed.
